

# Los Alamos, NM

## GRASP® Atlas

### Inventory Process and Scoring Information

This inventory has been completed in a series of steps. The planning team first prepared a preliminary list of existing components using information provided by the client as well as aerial photography and the Geographic Information System (GIS) data. All components identified were given GIS points and names.

Next steps involved field visits conducted by the consulting team to confirm the preliminary data and collect additional information.

During the field visits and evaluations, missing components are added to the data set, and each component was evaluated as to how well it met expectations for its intended function. During the site visits the following information was collected:

- Component location
- Component type
- Evaluation of component condition
- Evaluation of comfort and convenience features
- Evaluation of park design and ambience
- Site photos
- General comments

The inventory team uses the following rating system to evaluate each component, comfort and convenience feature, and overall design and ambience:

- 0 = Not Functioning
- 1 = Below Expectations
- 2 = Meets Expectations
- 3 = Exceeds Expectations

Scores are based on such things as the condition of the component, its size, or capacity relative to the need at that location, and its overall quality.

Components are evaluated from two perspectives: first, the value of the component in serving the immediate neighborhood, and second, its value to the entire community.

The setting for a component and the conditions around it affect how well it functions, so in addition to scoring the components, each park site is given a set of scores to rate its comfort, convenience, and ambient qualities. This includes such things as the availability of restrooms, drinking water, shade, scenery, etc.

Information collected during the site visits has been compiled in the following GIS.

Los Alamos, NM

Inventory Approval Atlas

April 2022

## Outdoor Locations

## Outdoor Component List

GRASP® Outdoor Component Type	Definition
Adventure Course	An area designated for activities such as ropes courses, zip-lines, challenge courses, etc. Specify type in comments.
Amusement Ride	Carousel, train, go-carts, bumper cars, or other ride upon features. Has an operator and controlled access.
Aquatics, Complex	A facility that has at least one immersion pool and other features intended for aquatic recreation.
Aquatics, Lap Pool	A man-made basin designed for people to immerse themselves in water and intended for swimming laps.
Aquatics, Leisure Pool	A man-made basin designed for people to immerse themselves in water and intended for leisure water activities. May include zero-depth entry, slides, and spray features.
Aquatics, Spray Pad	A water play feature without immersion intended for interaction with moving water.
Aquatics, Therapy Pool	A temperature-controlled pool intended for rehabilitation and therapy.
Basketball Court	Describes a dedicated full-sized outdoor court with two goals.
Basketball, Practice	Describes a basketball goal for half-court play or practice. Includes goals in spaces associated with other uses.
Batting Cage	A stand-alone facility that has pitching machines and restricted entry.
Bike Complex	A facility that accommodates various bike skills activities with multiple features or skill areas.
Bike Course	A designated area for non-motorized bicycle use. It can be constructed of concrete, wood, or compacted earth. May include a pump track, velodrome, skills course, etc.
Camping, Defined	<p><u>Defined</u> campsites that may include a variety of facilities such as restrooms, picnic tables, water supply, etc. Quantity based on official agency count.</p> <p>For use only if the quantity of sites is available. Use "Camping, Undefined" for other instances.</p>
Camping, Undefined	Indicates allowance for users to stay overnight in the outdoors in informal and/or undefined sites. Receives a quantity of one for each park
Climbing, Designated	A designated natural or man-made facility provided and/or managed by an agency for recreation climbing not limited to children's play.
Climbing, General	Indicates allowance for users to participate in a climbing activity. Receives a quantity of one for each park.
Concession	A facility used for the selling, rental, or other provision of goods and services to the public.

GRASP® Outdoor Component Type	Definition
Diamond Field	Describes softball and baseball fields of all kinds suitable for organized diamond sports games. Not specific to size or age-appropriateness.
Diamond Field, Complex	Multiple ballfields at a single location suitable for tournaments.
Diamond Field, Practice	Describes any size of grassy area used for practice. Distinguished from ballfield in that it doesn't lend itself to organized diamond sports games. Distinguished from open turf by the presence of a backstop.
Disc Golf	Describes a designated area that is used for disc golf. Quantities: 18 hole course = 1; 9 hole course = .5
Dog Park	An area explicitly designated as an off-leash area for dogs and their guardians.
Educational Experience	Signs, structures, or historical features that provide an educational, cultural, or historical experience. Receives a quantity of one for each contiguous site. Distinguished from public art by the presence of interpretive signs or other information.
Equestrian Facility	An area designated for equestrian use. Typically applied to facilities other than trails.
Event Space	A designated area or facility for an outdoor class, performance, or special event, including an amphitheater, bandshell, stage, etc.
Fitness Course	One or more features intended for personal fitness activities. Receives a quantity of one for each complete grouping.
Game Court	Outdoor court designed for a game other than tennis, basketball, volleyball, as distinguished from a multi-use pad, including bocce, shuffleboard, lawn bowling, etc. The type specified in the comments. Quantity counted per court.
Garden, Community	Describes any garden area that provides community members a place to have a personal vegetable or flower garden.
Garden, Display	Describes any garden area that is designed and maintained to provide a focal point or destination, including a rose garden, fern garden, native plant garden, wildlife/habitat garden, arboretum, etc.

GRASP® Outdoor Component Type	Definition
Golf	A course designed and intended for the sport of golf. Counted per 18 holes. Quantities: 18 hole course = 1; 9 hole course = .5
Golf, Miniature	A course designed and intended for use as a multi-hole golf putting game.
Golf, Practice	An area designated for golf practice or lessons, including driving ranges and putting greens.
Historic Feature	A site designated to commemorate an event, person or place of local, statewide or national significance
Horseshoe Court	A designated area for the game of horseshoes, including permanent pits of regulation length. Quantity counted per court.
Horseshoes Complex	Several regulation horseshoe courts in a single location suitable for tournaments.
Ice Hockey	Regulation size outdoor rink explicitly built for ice hockey games and practice. General ice skating included in "Winter Sport."
Inline Hockey	Regulation size outdoor rink built specifically for in-line hockey games and practice.
Loop Walk	Opportunity to complete a circuit on foot or by non-motorized travel mode. Suitable for use as an exercise circuit or leisure walking. Quantity of one for each park or other location unless more than one distinct circuit is present.
Multi-Use Pad	A paved area that is painted with games such as hopscotch, 4 square, tetherball, etc. Often found in schoolyards. As distinguished from "Games Court," which is typically single-use.
Natural Area	Describes an area in a park that contains plants and landforms that are remnants of or replicate undisturbed native areas of the local ecology. It can include grasslands, woodlands and wetlands.

GRASP® Outdoor Component Type	Definition
Open Turf	A grassy area that is not suitable for programmed field sports due to size, slope, location, or physical obstructions. May be used for games of catch, tag, or other informal play and uses that require an open grassy area.
Other	An active or passive component that does not fall under any other component definition. Specified in comments.
Passive Node	A place that is designed to create a pause or particular focus within a park and includes seating areas, plazas, overlooks, etc. Not intended for programmed use.
Pickleball Court	A designated court designed primarily for pickleball play.
Picnic Ground	A designated area with a grouping of picnic tables suitable for organized picnic activities. Individual picnic tables are accounted for as Comfort and Convenience modifiers.
Playground, Destination	A playground that attracts families from the entire community. Typically has restrooms and parking on-site. May include special features like a climbing wall, spray feature, or adventure play.
Playground, Local	A playground that serves the needs of the surrounding neighborhood. Includes developed playgrounds and designated nature play areas. Park generally does not have restrooms or on-site parking.
Public Art	Any art installation on public property. Receives a quantity of one for each contiguous site.
Rectangular Field Complex	Several rectangular fields in a single location suitable for tournament use.
Rectangular Field, Large	Describes a specific field large enough to host one adult rectangular field sports game such as soccer, football, lacrosse, rugby, and field hockey. The approximate field size is 180' x 300' (60 x 100 yards). A field may have goals and field lining specific to an individual sport that may change with a permitted use.

GRASP® Outdoor Component Type	Definition
Rectangular Field, Multiple	Describes an area large enough to host one adult rectangular field sports game and a minimum of one other event/game, but with an undetermined number of actual fields. This category describes a large open grassy area that can be arranged in any manner of configurations for any number of rectangular field sports. Sports may include but are not limited to: soccer, football, lacrosse, rugby, and field hockey. A field may have goals and field lining specific to a particular sport that may change with a permitted use.
Rectangular Field, Small	Describes a specific field too small to host a regulation adult rectangular field sports game. Accommodates at least one youth field sports game. Sports may include but are not limited to: soccer, football, lacrosse, rugby, and field hockey. The field may have goals and field lining specific to a certain sport that may change with a permitted use.
Shelter, Large	A shade shelter or pavilion large enough to accommodate a group picnic or other event for a minimum of 13 seated whether or not benches or picnic tables are provided. Lack of seating may be addressed in scoring.
Shelter, Small	A shade shelter, large enough to accommodate a family picnic or other event for approximately 4-12 persons with seating for a minimum of 4. Covered benches for seating up to 4 people included as a modifier in comfort and convenience scoring and should not be included here.
Skate Feature	A stand-alone feature primarily for wheel sports such as skateboarding, in-line skating, etc. The feature may or may not allow freestyle biking. May be associated with a playground but is not part of it. Dedicated bike facilities are categorized as "Bike Course."
Skate Park	An area set aside primarily for wheel sports such as skateboarding, in-line skating, etc. Attracts users from the entire community. The park may or may not allow freestyle biking. May be specific to one user group or allow for several user types. It can accommodate multiple users of varying abilities. Typically has a variety of concrete or modular features.

GRASP® Outdoor Component Type	Definition
Target Range	A designated area for practice and/or competitive target activities. The type specified, such as archery or firearms, in comments.
Tennis Complex	Multiple regulation courts in a single location with amenities suitable for tournament use.
Tennis Court	One standard regulation court suitable for recreation and/or competitive play. Quick Start or other non-standard types specified in comments.
Tennis, Practice Wall	A wall intended for practicing tennis.
Track, Athletic	A multi-lane, regulation-sized running track appropriate for track and field events.
Trail Access Point	A point of connection to a trail or trail system, without amenities generally associated with a trailhead.
Trail, Multi-Use	A trail, paved or unpaved, is separated from the road and provides recreational opportunities or connection to walkers, bikers, rollerbladers, and equestrian users. Paths that make a circuit within a single site are "Loop Walks."
Trail, Primitive	A trail, unpaved, located within a park or natural area that provides recreational opportunities or connections to users. Minimal surface improvements that may or may not meet accessibility standards.
Trail, Water	A river, stream, canal, or other waterway used as a trail for floating, paddling, or other watercraft.
Trailhead	A designated staging area at a trail access point. May include restrooms, an information kiosk, parking, drinking water, trash receptacles, seating, etc.
Volleyball Court	One full-sized court. May be hard or soft surface, including grass and sand. May have permanent or portable posts and nets.

GRASP® Outdoor Component Type	Definition
Wall Ball Court	Walled courts associated with sports such as handball and racquetball. The type specified in the comments.
Water Access, Developed	A developed water access point. Includes docks, piers, kayak courses, boat ramps, fishing facilities, etc. Specified in comments including quantity for each unique type.
Water Access, General	Measures a user's general ability to access the edge of open water. May include undeveloped shoreline. Typically receives a quantity of one for each contiguous site.
Water Feature	A passive water-based amenity that provides a visual focal point. Includes fountains and waterfalls.
Water, Open	A body of water such as a pond, stream, river, wetland with open water, lake, or reservoir.
Winter Sport	An area designated for a winter sport or activity such as a downhill ski area, nordic ski area, sledding hill, toboggan run, recreational ice, etc. The type specified in the comments.

## Indoor Locations

## Indoor Component List

GRASP® Indoor Component Type	Definition
Arts and Crafts	A room with non-carpeted floor, built-in storage for materials, and a sink. Often adjacent to a kiln room.
Auditorium/Theater	A large room designed specifically as a performance/lecture space that includes a built-in stage, seating, and can accommodate stage lighting and sound amplification.
Childcare/Preschool	A room or space with built in secure entry and cabinets, a small toilet, designated outdoor play area, etc. Intended for short-term child watch or half or full day preschool use.
Fitness/Dance	A room with resilient flooring and mirrors.
Food - Counter Service	Staffed food service with commercial kitchen and no waiter services.
Food - Full Service	Staffed food service with commercial kitchen and dining room with waiter services.
Food - Vending	Non-staffed area with vending machines and/or self-service food options.
Gallery/Exhibits	A space intended for display of art, interpretive information, or other type of exhibit. Typically has adequate lighting, open wall space, and room for circulation.
Sport Court	Active recreation space that can accommodate basketball, volleyball, or other indoor court sports with one or more courts designated in quantity.
Track, Indoor	Course with painted lanes, banked corners, resilient surface, and marked distances suitable for exercise walking, jogging, or running.
Kitchen - Kitchenette	Area for preparing, warming, or serving food.
Kitchen - Commercial	Kitchen that meets local codes for commercial preparation food services.
Lobby/Entryway	An area at the entry of a building intended for sitting and waiting or relaxing.
Multi-purpose Room	A space that can host a variety of activities including events, classes, meetings, banquets, medical or therapeutic uses, etc. Also includes rooms or areas designated or intended to be used as games rooms, libraries, or lounges. Rooms may be dividable.
Patio/outdoor seating	An outdoor space or seating area designed to be used exclusively in conjunction with an indoor space and primarily accessed through an indoor space.
Retail/Pro-shop	An area for retail sales of sporting equipment, gifts, etc. Typically has direct access from outdoors and can be secured separately from the rest of a building or facility.
Sauna/steam	A facility with built-in seating and a heat source intended for heat therapy. May be steam or dry heat.

Note: Any component from the outdoor component list may be included as an indoor component
